

REQUIRED INFORMATION FOR LINTEL SHOP DRAWINGS

The following information is required before we can begin shop drawings for the Concealed Lintel System. In order to assure that we design and build the lintels to your specifications, please send all of the items listed below to us as soon as possible.

1. A PURCHASE ORDER OR WRITTEN NOTICE TO PROCEED WITH SHOP DRAWINGS.
2. Architectural elevation and section of each masonry opening.
3. Structural section of each masonry opening
4. Architectural floor plan
5. Reflected ceiling drawing or notations of brick pattern coursing of each masonry opening.
6. A sample of the brick being used on the project. Brick **MUST BE CORED** to work with the Halfen Concealed Lintel System.
(We will also accept a detailed, dimensional drawing of the brick. This drawing must detail and provide dimensions for length, width and height of the brick and also detail and show dimensions of the brick cores.)
7. Any **“REVISED”** plans must be forwarded to Halfen as soon as received.

Your help in making sure these items are sent to us immediately, will assure us of getting your shop drawings out to you in a timely manner. Please send all information to:

HALFEN ANCHORING SYSTEMS / MEADOW BURKE PRODUCTS
